PROFILE

Front End Developer with 12+ years building fast, polished web applications for international clients. Specialist in React, Webflow, and WordPress — delivering SaaS dashboards, CMS platforms, and corporate sites that perform and convert. Known for clean, accessible code, strong async communication, and consistent delivery under deadline pressure.

EXPERIENCE

Senior Front End Developer

Aug 2013 – Present

Rapid Web Solutions Pvt. Ltd. · Kathmandu, Nepal · 13 years

- ▶ Shipped 400+ web products for international clients — SaaS platforms, corporate sites, WordPress and Webflow builds, and bespoke UI component libraries.
- ▶ Led full front-end build of a large-scale Webflow platform — CMS-driven templates, GSAP animations, dynamic collection filtering, and accessible UI components.
- ▶ Expanded scope from Feb 2026 to include React component development and custom WordPress theme work.
- ▶ Built a fully custom WordPress site for a home-services business using Elementor and ACF — custom post types, relationship fields, and archive/single templates from scratch, delivering a fully editor-managed system with zero code changes required.
- ▶ Grew into senior role through consistent technical quality, teammate mentorship, and on-time delivery across async remote workflows.

Front-End Developer

Aug 2012 – Jul 2013

Weblink Nepal · Kathmandu, Nepal

- ▶ First professional role — converting Photoshop designs into clean, cross-browser HTML/CSS/JS.
- ▶ Built responsive layouts and worked alongside back-end developers and designers to meet client deadlines.
